LGBTIQA+ RESOURCES FOR EDUCATORS

Who is Strong Safe Fabulous

Strong Safe Fabulous is a partnership between [Prosper Project Australia](#) and [Rainbow Families Australia](#). We believe every family has the right to live free from violence and that we all play a part in making our communities safer.

On our site, you can learn how to help change the attitudes and beliefs that lead to domestic and family violence. We also provide tools for promoting inclusion, personal safety, and the wellbeing of young people who identify as LGBTIQA+. This work was proudly funded by the NSW Department of Communities and Justice.

Creating inclusive school communities

As a teacher or school staff member, you help shape a community where every student belongs. Schools are hubs where families find support and where young people should feel safe, respected, and valued for who they are.

Our campaign provides relevant resources - many co-designed by students and professionals - to help you implement diversity and inclusion practices. When we celebrate all identities and family structures, we help LGBTIQA+ students feel safe and motivated to learn.

Below are our resources specifically for Australian high school educators.

[You can check us out here.](#)
